Kevin Klein, Principal

Wards Creek Family,

During the 2013-14 school year I became fortunate to be announced as the assistant principal for the Wards Creek Warrior Community. Over the years I have had the pleasure to see how so many young boys and girls developed in their character and academics. These students continue to amaze me with their efforts and when they recognize their progress it brings about such excitement. I have enjoyed building capacity with the families and faculty and establishing a partnership based upon trust. Knowing that I will continue to work with such wonderful people as the Principal provides me great comfort. My desire is that we will continue to help students learn how to become the best they can be by challenging and supporting them together. If we uphold the belief of Eleanor Roosevelt, "We need to treat everyone the same, as an individual," along with maintaining high expectations, we will accomplish this mission. Wards Creek Elementary is indeed a place where we have built a culture that provides a safe environment where all stakeholders collaborate to ensure growth and achievement for all. To those returning Warriors, thanks for the many great years serving as the Assistant Principal. To those new to the Warrior Family, I look forward to working together in the best interest of your child. Honored to continue to be a Warrior and look forward to carrying the torch!

Kevin Klein
Principal
